## Program History

The mission of Prevention Network is to prevent youth drug abuse and other risk behaviors by working with individuals, grassroots groups, and other organizations in order to improve the health, wellness, and safety in Michigan communities. We do this by increasing the capacity of all groups through training, technical assistance, and networking opportunities.

## Training Objectives

1. Understand the research basis to substance abuse prevention.
2. Understand what risk and protective factors are.
3. Be able to choose what risk and protective factors to address as volunteers.
4. Understand the need for data collection, planning and evaluation as it relates to their efforts.
5. Work side-by-side with certified Substance Abuse Prevention Specialists, Community Organizers, and Coalition Coordinators as they carry out their funded, action-plan based on prevention activities.
