

Substance Abuse Prevention **Ethics** Training

As a substance misuse prevention professional, we regularly face situations that require us to make ethical decisions. Often it is clear how to act ethically; sometimes it is not!

Learning objectives:

- Understand the distinctions between ethics and values
- Be familiar with the 6 Principals of Prevention Ethics
- Be introduced to an ethical decision making model
- Participate in discussion of case studies that have ethical implications

This training satisfies the ethics training requirement for the MCBAP Prevention Specialist and Prevention Consultant certifications. This will NOT satisfy the ethics requirement for other MCBAP certifications.

Be Introduced to an ethical decision making model

8:30 Sign in starts
Training Begins at
9:00 AM - 4:30 PM
