

Seeking Safety:

An Evidence-Based practice for Trauma and Substance Abuse

Seeking Safety Course Description:

The goal of this course is to learn *Seeking Safety*, an evidence-based treatment for trauma and/or substance abuse. Background on trauma and substance abuse will be covered as well as implementation of *Seeking Safety* (overview, evidence base, fidelity). By the end of the training, therapists will be able to implement *Seeking Safety* in their setting and facilitators will be able to apply the key principles to their work the individuals they serve.

You must serve ADULTS with Medicaid in order to qualify for this training.

This practice is NOT evidence based for children.

Course Objectives:

1. To review research and clinical issues in treating trauma and substance abuse;
2. To increase empathy and understanding of trauma and substance abuse;
3. To describe *Seeking Safety*, an evidence-based model for trauma and/or substance abuse.
