

Macomb

Family Services, Inc.

Hello Parents/Guardians!

Macomb Family Services is offering a virtual informational session on the real world of vaping nicotine and/or THC (marijuana).

The information covered includes the dangers of use in adolescence, comparing traditional tobacco and nicotine vapes, biological effects of both nicotine and THC, and more.

The session will be held on Zoom, and signing up for the session is required.

You will need to have the ability to do a video conference. This means having a phone or laptop with a camera.

Sessions will consist of you, your child/student, and MFS staff.

The class length will be approximately 45 minutes.

There will be opportunities to ask questions throughout the session, however we request you hold them until the end.

Follow up sessions will be available.

Possible topics are Mental Health, Alcohol, Prescription Drugs, Street Drugs, Peer Pressure, Bullying

****If you are unable to access the internet please call the number below and we will discuss other options****
